**PUNCH<sup>2</sup>**

I can't  
give it  
enough  
distance!

The gate  
can't handle  
this much  
energy...

the  
vector  
of the  
destructive  
energy  
away  
from the  
Earth!  
...to  
at least  
alter...

No  
matter  
what, I've  
got to  
somehow  
manage  
...

SEEMS  
WE UNDER-  
ESTIMATED  
EARTH.

JUST  
WHO  
IS HE?

TO THINK  
ANOTHER HERO  
BESIDES YOU  
COULD HOLD HIS  
OWN AGAINST ONE  
IMBUED WITH SO  
MUCH DIVINE  
POWER...

YOU  
GUYS!

WE'LL  
LEND YOU  
A HAND.

WHAT  
HAPPENED  
TO THOSE  
TWO?

WERE  
THEY  
KNOCKED  
AWAY...?

WITH THAT  
KIND OF ENERGY,  
WHO KNOWS HOW  
FAR THEY COULD'VE  
FLOWN FROM  
THE RECOIL....

WHAT  
THE HELL  
HAPPENED?

WHERE  
ARE WE?

I'M  
GETTING  
A FEELING  
OF DEJA  
VU, HERE.

Jup:ter  
??

No  
way,  
that  
couldn't  
be

OH WELL,  
AT LEAST  
I CAN LET  
LOOSE...

AT FULL  
POWER,  
AGAINST  
A GUY  
WHO CAN  
STAY UP  
.....

I  
BETTER  
KEEP A  
TIGHT GRIP  
ON IT...

**SHUT  
UP.**

BUT  
WE'VE  
GOT TO  
THINK OF  
A WAY  
BACK...

NO IDEA  
HOW THIS  
HAPPENED  
...

KNOW  
WHAT?  
PRETTY  
SURE WE'RE  
ON ONE OF  
JUPITER'S  
MOONS.

HEY,  
BALDY.

THAT CAN  
COME AFTER  
I BEAT THE  
SHIT OUT  
OF YOU.

ONE  
HAND IS  
ALL I NEED  
FOR YOU.

BRING  
IT ON.

ばし

EH...

He  
can grab  
hyperspace  
gates ?

IS  
THAT  
WHAT  
YOU CALL  
"ULTIMATE  
MARTIAL  
ARTS"?

FORGET  
YOUR LITTLE  
TRICKS AND  
COME AT ME  
WITH YOUR  
FISTS.

I HAVE  
ABSORBED  
THE STYLES  
AND TECH-  
NIQUES OF  
COUNTLESS  
SCHOOLS.

FIGHTING  
USING EVERY  
SINGLE ONE  
OF THESE IN  
SYNERGY...

TRICKS  
...?

...THAT  
IS MY  
FIST!

**WATER  
STREAM  
ROCK  
SMASH

**EXPLODING HEART**

**RELEASE**

**WHIRLWIND**

**IRON CUTTING**

**GRAVITY KNUCKLE**

**MUGLEAR FISSION**

THEY  
ARE  
COM-  
PLETELY  
UNAVOI-  
DABLE.

WITH  
MY FISTS,  
TIMING IS  
IRRELE-  
VANT.

I CAN  
LET LOOSE  
A BARRAGE  
OF EVER-  
CHANGING  
ATTACKS  
FROM ALL  
DIREC-  
TIONS.

EVEN  
I CAN DO  
SOMETHING  
LIKE THAT.

# KILLER MOVE: SERIOUS SERIES

Focus for  
a second. .  
all he's doing  
is showing  
off his insane  
physical  
strength and  
darting back  
and forth  
between the  
rocks.

If I  
can just  
get above  
the barrage  
of rocks, he  
shouldn't be  
able to move  
around as he  
pleases

!?

To the  
top...

The  
surface  
!!?

Like a  
caged  
insect  
being  
played  
with by a  
child...

I com-  
pletely  
lost my  
sense of  
direction.

He's  
limitlessly  
strong  
...!!

So  
strong!

If  
that's  
the case  
...

**THEN I'LL JUST  
HAVE TO COPY  
HIM LIMITLESSLY...**

**UNTIL I WIN!!!**

## Need-to-Know Things About Io

1

### SMALL, NOT TINY

Io is only slightly larger than Earth's moon and about one-quarter the diameter of Earth itself.

2

### OUT THERE

Io orbits the planet Jupiter, which itself orbits the Sun at a distance of 484 million miles (778 million kilometers).

3

### GRAVITATIONALLY TAMED

Tidal Lock: Over 1.8 Earth days, Io rotates once on its axis and completes one orbit of Jupiter, causing the same side of Io to always face Jupiter.

4

### ERUPTIVE

The moon Io is the most volcanically active world in the solar system. Io even has lakes of molten silicate lava on its surface.

5

### ONLY WISPS

Io's very thin atmosphere is primarily sulfur dioxide, which on Earth is sometimes used to preserve dried food.
